

Retrofitting Legacy Pneumatic Controls in Healthcare Facilities

October 2023

What Problem Are We Solving?

- Do you have pneumatic thermostats that you want to upgrade to DDC?
 - Are these old stats affecting patient comfort and survey scores?
 - Are they wasting energy?
 - Do they require high maintenance effort?
 - Is it difficult to find qualified technicians who understand pneumatic controls?

Our Solution: Wireless Pneumatic Thermostat

EXISTING LEGACY STAT

*Minimal Disruption
10 Minute Upgrade*

WPT THERMOSTAT

- Game-changing patented technology – reduces cost to upgrade by 50-70%
- No disruption to hospital operations – upgrade in 10 minutes, no disruption to patients or staff
- Already proven in hospitals: VA Medical Centers, Sutter Health, Advocate/Atrium, LifePoint, NYC HHC etc.
- Saves energy, fast payback – typically less than three-year return on investment

Next Steps

- Meet with our pneumatic control experts
 - Understand your unique facility and needs
 - Review deployment questions
 - Compatibility with existing pneumatic system
 - I.T. and cyber security requirements
 - Integration with existing Building Automation System
 - Review benefits and payback, potential utility rebates
 - Expert team - direct from manufacturer

Healthcare Users of WPT Technology – Select List

- Sutter Health (6 sites)
- Advocate (Aurora)
- VA Medical Centers (12 sites)
- NYC Health and Human Services (3 sites)
- Yale Medical Center
- Catholic Health – Saint Francis Hospital
- LifePoint (14 sites, 3 installed)
